

## Jim Sullivan

Jim Sullivan has a regional plumbing business, with plumbers responding to calls in five counties. Now each plumber can process credit cards on his mobile phone the minute he's done fixing broken water heaters and leaky pipes. No bounced checks, no worrying about payments – and his guys are back on the road quickly.

Secure, certified and with features such as real-time authorization, void and refunds, you can trust that your business is in good hands.

ROAMpay is the definitive application for processing major credit cards like Visa® and MasterCard® and American Express® all from your mobile phone.

Capture customer data, export .csv, email receipts and check transaction history all from your mobile phone. ROAMpay works on hundreds of phones.
